EPA REGISTERED AS A DIESEL FUEL ADDITIVE*

FOUR IN ONE is a new anti-pollution formulation developed to control black and white exhaust emissions and eliminate moisture in fuel lines and tanks. It prevents fuel line cracking, improves combustion, and reduces or eliminates carbon build-up and varnish deposits. Regular use will provide increased mileage, decreased exhaust emissions, longer injector life, and reduced maintenance costs.

*This diesel fuel additive complies with the federal low sulfur content requirements for use in diesel motor vehicles and non-road engines.
